

Hulings Foresees War With Mexico

Pennsylvania Representative Says Congress Should Unite For Action.

WASHINGTON, D. C., March 19.—"War with Mexico means a war of exhaustion. The moment our troops pass the frontier, the Mexicans will drop their quarrel and make common cause against the land and sea common enemy," declared Representative Hulings, of Pennsylvania, "Progressive," today in the house.

He declared it was the duty of congressmen to stand shoulder to shoulder in the Mexican situation and that he believed order would never be restored in Mexico save by a strong man, supported by a force superior to the factions now harrying the country, and that there was no such force in Mexico.

"I believe the time must come, if it has not already arrived," he added, "when it will be the imperative duty of this government to announce to the world that present conditions in Mexico must cease and that unless by a given time the Mexicans themselves shall have made pacific arrangements and cease hostilities, the United States will undertake to restore peace."

CANAL ZONE DISTRICT ATTORNEY IS NAMED

Washington, D. C., March 19.—President Wilson today nominated Wm. K. Jackson, Jr., of Oregon, Canal Zone, to be district attorney of the canal zone.

Newspaper Advertisement Points Way to Health

I can truthfully say that Dr. Kilmer's Swamp-Root is a very good medicine, not alone for kidney trouble, but also for weak and sore back, as well as for rheumatism.

About a year ago I became ill and unable to work, my trouble being a lame back. I read in the newspaper of Dr. Kilmer's Swamp-Root, and in an Almanac. Believing it would do me good, I went to my drug store, and purchased a bottle. Finding relief in one fifty-cent bottle, I purchased several more and in a short time was able to resume work with my work and am today feeling well and strong. I always recommend Dr. Kilmer's Swamp-Root to my friends. I believe it is as good a medicine as can be found.

The Boon of Health Makes Manly Men.

(From Statistic Student.)

Private statistics of a physician with a national practice, indicate that fully fifty per cent of middle-aged men are partly or wholly deficient in ability, manliness and health. If men could only know the meaning of the usual symptoms which precede the oncoming of premature age many could be saved from misery, dependency and an early grave. Symptoms should not be confounded with disease, but should be accepted as warnings of the approach of disease.

That many may know what to do when such symptoms exist the following symptoms and prescription is published:

A premature break-down of the vitality is indicated by dull, sunken eyes, cold extremities, backache, headache, fatigue, pains in arms or back, pains in back of head, spots before the eyes, weakness in spine, twitching and trembling, impaired memory, loss of appetite, wasting, thinness (or abnormal fat), shrunken, flabby flesh, wrinkles, dullness, languor, constipation, kidney disorders, irritability, lack of ambition, timidity, weak-spirited, dragging walk and unusually carriage.

If the reader decides to try it, get three ounces of ordinary syrup of sarsaparilla, compound, and one ounce compound fluid balsam; mix and let stand two hours; then get one ounce compound essence, cardiol and one ounce tincture cadomene, compound (not cadomene), mix all together, shake well and take a teaspoonful after each meal and one at night.

This contains no opium whatever and may also be used by women who suffer with their nerves with absolute certainty of prompt and lasting benefits.

By preparing the treatment at home secretly no one need know of another's trouble until the ingredients are much used in filling various prescriptions, so that even the pharmacist, if he separately need occasion no timidity.—Advertisement.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, which causes all the pain and discomfort, is acid in the stomach, usually due to, or aggravated by, food fermentation. Acid irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bluerated magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your chemist for the bluerated magnesia. I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.—Advertisement.

A MAGNIFICENT STEAMER

Grand Steamer of S.S. Vaterland
WORLD'S LARGEST SHIP

No detail of the steamship Vaterland, the world's largest ship, gives a more striking impression of her enormous dimensions than her grand staircase. Several decks are connected by broad flights of stairs which will accommodate the population of this floating city without inconvenience. The staircase is, of course, supplemented by a number of electric elevators running through all of the nine passenger decks. In her general lines and the luxury of her appointments the Vaterland resembles her sister ship, the Imperator. The Vaterland measures 950 feet in length, 100 feet in beam and is of 58,000 tons burden. The Imperator, which is 82,000 tons burden, is in turn 5,000 tons larger than any other ship in the world. The Vaterland will sail for New York on her maiden cruise June 4th and will thereafter, with the Imperator, maintain a regular schedule.

SEASON IS SAID TO BE ONE ESCAPES BY SKYLIGHT

Chicago, Ill., March 19.—"Mutiny" among the Brooklyn Federals was reported today in a special from the Chicago Federal camp, at Shreveport, La. The dispatch said that Tom Seaton, one of the league's star pitchers, had been ordered by his "boss," R. R. Ward, to report to the Brooklyn camp, at Columbus, S. C., but that Seaton refused to leave the Chicago camp and insisted that he would play with Thacker's team instead of Brooklyn.

Detroit, Mich., March 19.—Fire broke out this afternoon in the five-story building occupied by the Houghton-Detroit Elevator company, in the downtown district, is believed to have resulted in the death of three men who were working on the fifth floor.

Four men were employed on that floor. One escaped through a skylight. He was badly burned and cut and could give no information concerning the fate of his companions.

SHORT LECTURES TO FEATURE DINNER

Women Relatives of Chamber of Commerce Members Will Not Be Invited to Next Dinner.

Two 30 minute lectures, one to depict the possibilities of a school of mines and the other to describe the beauties of the Southern National Auto highway between Tulsa and Rosewell, N. M., will be the features of the chamber of commerce "dollar dinner," to be staged Thursday evening, March 20, at the Hotel Paso del Norte.

Dr. George S. Ladd, president of the New Mexico Agricultural and Mechanical college, at Mesilla Park, will speak on the possibilities of a school of mines. How a community benefits through the presence of such a school will be the chief point of his lecture.

Stereopticon views showing scenes in the White mountains of New Mexico and on the Mesquero Indian reservation, as well as along the Southern National Auto highway which connects Rosewell and Tulsa, will be used by S. M. Johnson, of Rosewell, to illustrate the second lecture. Mr. Johnson will deliver this same lecture next summer in Washington, D. C. in the interests of the Senate bill to create a national park on the Mesquero reservation.

Dan M. Jackson is slated for the final speech of the night. He will recount the experiences of the El Paso delegates during their trip to the recent convention of the Panhandle and Southwestern Cattleman's association in Oklahoma City. The results achieved by the delegates, who secured the 1916 meeting of the organization for El Paso, will also be outlined.

A musical program is being arranged by secretary Andrew Reeves, but details have not been completed. The coming banquet will be only for members of the chamber of commerce. Women relatives are not invited this time.

JOSEPH FOX PROMINENT IN CINCINNATI LABOR CIRCLES

Cincinnati papers have printed stories of the death of Joseph Fox, the union labor man who fell from a window in the labor temple on Overland and Kansas streets, and was killed. His sister, Mrs. Graves, has made request of the Cincinnati Plasterers' union that the body of her brother be returned to Cincinnati for burial.

Fox was active in union labor affairs of that city, the Cincinnati papers say.

Friends of Fox in El Paso believe his death was accidental. They say that he often sat in the windows of labor hall and drank the belief that on the day he was killed he lost his balance, the fatal plunge to the pavement resulting.
